Training: learning to make better choices

Training is at the heart of the **Scelte Future** programme and is open to all families with children aged 0 to 6. It is free, straightforward and designed for anyone who wants to manage their financial resources more confidently and support the younger generation as they grow. There are no specific requirements to take part.

1 What is it for?

Training helps you to:

- understand and **manage** your family's financial resources more confidently;
- make informed choices about how to **plan**, **save** and build up funds over time to support your child's educational journey;
- **navigate decisions about schooling when the time comes to choose the most suitable path**.

2 How and where can you access it?

Training takes place on the Web App, which you can access from your phone, tablet or computer using the login details you receive when you join the Programme. You can work through it at your own pace, wherever suits you best.

3 What does it include, and what is compulsory?

It may include training courses, webinars and quizzes. Training is optional and free for everyone.

The only compulsory elements relate to the Matching Contributions: to qualify for this savings support, you must complete the required training content and pass the relevant tests to receive and retain it. You can find all the information in the dedicated fact sheet on the Matching Contributions.

4 How does it grow with your child?

Training grows alongside your child: **at first, it is designed for you** as a parent; later (typically between the ages of 8 and 14), it also involves your child; from the age of 14 onwards, **it focuses mainly on their journey** and choices for the future.
